

# Team Involvement in Demonstration

|                      |                                             |
|----------------------|---------------------------------------------|
| Date                 | 15 July 2026                                |
| Team / Submission ID |                                             |
| Project Name         | Emotion Detection & Learning Support Engine |
| Submitted By         | Venu Gopal (Sole Team Member / Team Lead)   |
| Maximum Marks        | 1 Mark                                      |

## Team Involvement in Demonstration

This project was completed independently. All roles below were carried out by a single team member.

| S.No | Team Member Name | Role in Demo                                  | Section Presented                                                                 | Contribution Summary                                                                                                                                                | Participation (Active/Passive) |
|------|------------------|-----------------------------------------------|-----------------------------------------------------------------------------------|---------------------------------------------------------------------------------------------------------------------------------------------------------------------|--------------------------------|
| 1    | Venu Gopal       | Presenter, Developer, ML Engineer & Demo Lead | All sections — introduction, architecture, live demo, analytics walkthrough, Q&A; | Designed and built the full pipeline (preprocessing, BiLSTM, BERT, Gemini integration, Streamlit UI, logging, analytics) and prepared the end-to-end demonstration. | Active                         |

## Team Coordination Notes

| Aspect                                 | Details                                                                                                                                                                 |
|----------------------------------------|-------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| Team Leader / Coordinator              | Venu Gopal (sole team member)                                                                                                                                           |
| Overall Team Coordination Rating (1-5) | 5 — single-member team, so no hand-off delays; all parts of the demo were prepared and rehearsed by the same person                                                     |
| Any issues during demo                 | Gemini API response time varied slightly between rehearsal runs due to normal network latency                                                                           |
| How issues were resolved               | Kept the rule-based fallback response enabled as a safety net during the live run, and rehearsed the flow beforehand so a slow response did not disrupt the demo pacing |
